

SECTION 11 40 00 - FOODSERVICE EQUIPMENT

PART 1 - GENERAL

1.1 SUMMARY

- A. Section includes the foodservice equipment scheduled on Drawing FS-601, furnished, set and made ready for final connection. Hand sinks and the hood fire suppression system are included.

1.2 COORDINATION

- A. Electrical characteristics of each item shall match the Kitchen Equipment Connection Schedule on Drawing E-601. Report any difference before release for fabrication.
- B. Exhaust hood length, model and capture area shall be as scheduled; coordinate duct collars with Division 23 and the fire suppression system with the fire alarm system.

1.3 ACTION SUBMITTALS

- A. Product Data: For every item scheduled on FS-601, keyed to the item number, with the scheduled model, options, accessories and electrical characteristics clearly marked.
- B. Include wiring diagrams and utility connection data for each item.
- C. Do not include items not scheduled unless submitted as a substitution under Section 01 25 00.

1.4 REGULATORY REQUIREMENTS

- A. Comply with the food code and plan review requirements of the health department having jurisdiction. Equipment shall be listed to the applicable NSF/ANSI standards.

PART 2 - PRODUCTS

2.1 EQUIPMENT

- A. As scheduled on FS-601. Substitutions only under Section 01 25 00.

PART 3 - EXECUTION

3.1 INSTALLATION

- A. Set equipment level, seal to adjacent surfaces, and coordinate final connections.

END OF SECTION 11 40 00
